

INTELLIGENT AGENTS & AUTONOMOUS DIGITAL SOLUTIONS

ORACLE AI EXPERTISE THAT DELIVERS

Streamline operations, reduce manual work, and drive smarter decisions across your entire Oracle Cloud environment — with AI agents built and deployed by certified experts.

ORACLE AI CAPABILITIES

GENERATIVE AI

Writes job descriptions, reports & commentary. Summarizes journals, approvals & expenses.

PREDICTIVE AI & ML

Predicts GL codes, flags payroll anomalies, scores supplier risk, forecasts demand.

AGENTIC AI

AI agents execute end-to-end processes with human-in-the-loop checkpoints.

AGENTIC APPS

Multi-agent workspaces orchestrate entire business roles autonomously.

FROM DISCOVERY TO **LIVE AGENTS** — IN WEEKS, NOT MONTHS

AI READINESS DISCOVERY

We assess your Oracle environment, validate data quality, and confirm the winning use cases.

WEEK 1

SCOPE & SELECT

Tell us your top pain points or pick from our pre-built accelerators. We align your needs with the agents.

WEEK 2

DESIGN & CONFIGURE

Enable AI features, configure agents, integrate with your data - zero disruption to your operations.

WEEKS 3-4

DEPLOY & TRAIN

Your agents go live. Your team is trained. ROI starts immediately — with a roadmap to scale further.

WEEKS 5-6

WHAT WE DELIVER

AI ACROSS EVERY ORACLE FUSION APPLICATION & OCI

ORACLE ERP

Automate the full financial transaction lifecycle - from invoice processing and collections to procurement and general ledger.

ORACLE HCM

Elevate the entire employee lifecycle - from smarter recruiting to career development, payroll accuracy, and workforce planning.

ORACLE SCM

Bring visibility, resilience, and efficiency across your supply chain - from demand forecasting to supplier risk and order fulfillment.

ORACLE CX

Automating sales guidance, accelerating opportunity-to-close, and surfacing the right intelligence at every touchpoint.

ORACLE OCI

The AI engine that powers it all - leveraging OCI's native Generative AI, vector search, and agent platform fully integrated in your environment.

PICK YOUR AGENTS

CHOOSE FROM OUR 360 ACCELERATORS — OR BRING YOUR OWN USE CASE

Our most popular production-ready agents, pre-configured for Oracle Cloud. Our SMACT Works accelerators - ready to deploy in weeks. Can't find your use case? We build custom agents too.

HAVE A USE CASE IN MIND? BRING IT TO THE SMACT TEAM

Not every business problem fits a template — and that's where SMACT makes the difference. Our Oracle-certified AI consultants assess your unique use case and design a tailored agent aligned to your workflows, data, and business objectives. If it runs on Oracle, we can build an intelligent agent that delivers measurable business value.

WHY SMACT

ORACLE AI EXPERTISE YOU CAN COUNT ON

AI CERTIFIED CONSULTANTS
